SKILLS

- **Languages:** Java, C++, C, Python
- **Frameworks :** HTML, CSS, Node.js, JavaScript
- **Tools/Platforms:** MySQL, VS code, Leetcode
- **Soft Skills:** Problem-Solving, Adaptability, Time Management

PROJECTS

- **Blockchain-Based Online Ticketing System | [link](#)** Feb' 2025
 - Built a secure and transparent online ticketing platform designed to eliminate the risk of ticket counterfeiting and fraud using block-chain technology.
 - Utilized blockchain's immutability and traceability to ensure that every ticket generated was uniquely verifiable and tamper-proof, enabling complete trust between event organizers and attendees.
 - Integrated QR-code based digital tickets that could be scanned and authenticated through a block-chain ledger, preventing duplication and unauthorized resale.
- **Food Donation System – Webistan Hackathon| [link](#)** Jan' 2025
 - Designed and developed a web-based Food Donation Platform that bridges the gap between restaurants with surplus food and individuals in need, such as beggars and homeless communities.
 - Implemented features for real-time food listings, pickup scheduling, and NGO/volunteer coordination to ensure timely delivery and safe handling of food.
 - Focused on solving a real-world social problem through technology-driven empathy, aiming to foster a more compassionate and sustainable society.
- **Sentinel - AI-Based “Safe Chat” Bot | [link](#)** Dec' 2024
 - Designed and developed an AI-powered chatbot focused on promoting online safety by warning users against sharing sensitive personal information in real time.
 - Integrated OpenAI's API to generate intelligent, context-aware responses and guidance based on conversation flow.
 - Aimed to encourage responsible digital behavior and provide users—especially minors—with a virtual safety companion in online chats.

TRAINING)

- **Data Structures and Algorithms (DSA Using C++) | LPU | [link](#)** Nov'2025
 - Gained valuable insights into the application of Data Structures, Algorithms, and Java through hands- on coding reviews and problem - solving exercises.
 - Enhanced the learning experience by actively participating in forums, addressing queries.

CERTIFICATES

- TCP/IP and Advanced Topics [link](#) Dec' 2024
- Fundamentals of Network Communication [link](#) Nov' 2024
- The Bits and Bytes of Computer Networking [link](#) Sept' 2024
- Peer-to-Peer Protocols and Local Area Networks [link](#) Sept' 2024

ACHIEVEMENTS

- Attended the 33rd CATC (Combined Annual Training Camp) under NCC, gaining hands-on experience in drills, discipline, leadership, and team coordination. Jun' 2025
- Participated and Ranked top 10 in the Hackathon: Web-e-Stan: Jan' 2025
- Built a smart AI Doctor system enabling users to upload images and receive health-related insights and diet suggestions. Jan' 2025
- Attended a 1-week NSS Special Camp in September 2022, contributing to community service activities including cleanliness drives, awareness campaigns, and rural development work. Sept' 2023

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering ; CGPA : 6.01	Since August 2023
Government Model Senior Secondary School	Palampur, Himachal Pradesh
Intermediate Percentage : 70%	Mar' 2022 – Mar' 2023
Neugal Public School	Palampur, Himachal Pradesh
Matriculation Percentage : 77%	Mar' 2020 – Mar' 2021
